*The team must be dressed and lined up in order at the time of your photo.

Photo Schedule Parameters

Teams scheduled to practice at Mt. Joy will practice for 25 minutes. Any extra time taken for photos will be subtracted from the allotted practice time.

Teams not scheduled to practice at Mt. Joy are scheduled for photos prior to their practice with enough time to allow for travel from Mt. Joy to Centennial/Milliken Mills

Floods will be kept to a minimum.

Hunter's photographers can process two teams in 15 minutes, so each team has approximately 7 minutes allotted for photos.

To ensure we stay on schedule, coaches are asked to have players **dressed and in line** by the team's appointed photo time.

Players and coaches are asked to exit the ice **immediately** after the team photo has been taken and return directly to the dressing room to keep the number of players mulling around the north end of the rink at a minimum.

Dressing rooms are scheduled to the minute over the course of the day. Please ask players to arrive dressed and no more than 15 minutes prior to their designated photo time. After the photo has been taken, please remain in the dressing room no longer than 15 minutes.

Do not use a dressing room other than the one designated for your use.

Photo Day Instructions

Completed Photo Rosters will be given to the Photographers ahead of time. Coaches should bring their team Photo Roster for use in lining up players.

All coaches need to be on the ice to help players and to ensure there is not horsing around as the players will not be wearing their helmets. Mite & Tyke teams may require extra help so additional volunteers will be on-ice for those two divisions.

Players will not wear their helmet or mouth guard in the picture, so please ask them to leave them in the dressing room. Players will need their gloves and stick.

Coaches should line up their players outside the northeast rink door (farthest from the Zamboni) in the order they appear on the Photo Roster (numerical order by jersey number). One coach should stand at the door and **allow the players on the ice one-by-one in order**.

Players will go on the ice for an individual photo first. After the individual photo is taken, a second coach should collect the sticks from the players and direct them to the photographer's bench to set up for team photo. A third coach should be at the photo bench to organize the players and supervise them.
