## **Return-to-sport protocol**

Sta	Stage 0: Initial rest period of 24-48 hours before beginning return-to-sport protocol					
Sta	ge 1: Symptom limited activity	(at least 24 hours)				
•	Daily activities that do not wors	en symptoms				
•	Conserve your brain and body's	energy, it is needed to feel well and a	Illow the brain to heal.			
Co	Confirmed completion Stage 1 for minimum of 24 hours with no new or worsening symptoms on					
	,			I/DD/YY		
	(Player Signature)	(Parent/Guardian Signature)				
Sta	Stage 2: Light aerobic exercise (at least 24 hours) Effort: 50%					
•	OFF THE ICE. NO CONTACT.					
•	Begin with a warm up (stretchin					
•		) minutes which can include: stationar	y bicycle, elliptical, treadmill, fa	ist paced		
	walking, light jog, rowing or swi	mming.				
Co	Confirmed completion Stage 2 for minimum of 24 hours with no new or worsening symptoms on					
			MM	I/DD/YY		
	(Player Signature)	(Parent/Guardian Signature)				
Stage 3: General conditioning & hockey specific exercise done individually (at least 24 hours)						
•	OFF THE ICE. NO CONTACT.					
•	Begin with a warm up (stretchin	•				
•	•	of cardio workout to 20-30 minutes.				
•	Begin hockey specific skill work:	individual stick handling and shooting	g drills.			
Confirmed completion Stage 3 for minimum of 24 hours with no new or worsening symptoms on						
			MM	I/DD/YY		
	(Player Signature)	(Parent/Guardian Signature)				
Stage 4 (a): Hockey specific training drills done with a teammate (at least 24 hours) Effort: 75%						
CAN BEGIN ON-ICE ACTIVITIES. NO CONTACT. NO SCRIMMAGES. NO BODY CHECKING.						
<ul> <li>Increase duration up to 60 minutes. Begin resistance training including neck and core strengthening exercises.</li> </ul>						
•	Begin on-ice skating warm-up: forwards, backwards, stop and start, cones.					
•	• Begin on-ice drills with a partner: passing, shooting on goalie and position specific drills like face-offs and deflections.					
•	_	h shooting pucks in a controlled manr	ner (e.g. progressing from shots	to the		
	pads/along the ice, glove shots	then shots to the corners).				
Co	Confirmed completion Stage 4(a) for minimum of 24 hours with no new or worsening symptoms on

## Overall guidelines of return-to-sport protocol:

- Players must spend a minimum of 24 hours at each stage, however most children/youth should spend longer.
- If the player experiences any new or worsening of symptoms during or after the activities in any stage, the player should stop that activity and return to the previous successful stage they can tolerate. Players should consult with a trained healthcare professional for return-to-sport strategies.
- Medical clearance is required before participation in *Stage 5: Full contact practice with team*. Clearance must be from a medical doctor or nurse practitioner. See <u>recommended medical clearance letter template</u>.
- Upon successful completion of Stage 5, this form in addition to medical clearance letter must be provided to the team trainer before player is permitted to participate in *Stage 6: Game Play*. Team trainer must send to <a href="mailto:barbm.waxers@gmail.com">barbm.waxers@gmail.com</a> prior start of game.
