

What to do if your child is unwell?

- If your child is unwell, please do not come to a practice/game until they are feeling better.
- If you suspect they may have been exposed to COVID-19, please have them tested and self isolate for 14 days or until a negative test result is obtained.
- If they are tested and receive a positive confirmation, please inform the team trainer and coach. **This does not replace the requirement to contact public health, you should still reach out to your doctor, and/or public health.** The player must provide either proof of a negative test or a note from a doctor or public health authority to return to play.

The team trainer will do the following.

- Inform the Waxers Head Trainer of the situation.
- Inform the other teams' coach/trainer of the situation (without disclosing any names) so they can inform their team.
- Inform the team of a positive test result and, if they are concerned, they should reach out to their doctor or Public Health.

If a player tests positive for Covid-19, the player's team will be shut down for 14 days.
